

How long does it take for a request to be added?

Movies

Movie requests are automatically approved, and will appear within a few hours of being requested depending on the current download queue and if they are found.

TV Shows

TV Shows are manually approved and will appear whenever we have time to process the requests, how long does that usually take? That's honestly an impossible question to answer, Remember - There's lots of customers, all requesting content - This results in a queue for approving requests however long it takes to complete your particular request, depends on what's in front of your request in the queue, and whether we have time to do requests on that given day
